

It is extremely important to allow XM radio to continue the services that they are now providing, this includes weather and traffic updates as well as a variety of music, talk shows, news, etc. I live in a small town but travel to Dallas, Austin and Houston often. In order to have a safe trip one must have up to date weather and traffic news. It is hazardous to travel in those cities with all of the things that are going on such as well bad weather, street closures, etc.. Waco's choice of radio stations do not include music that I love. XM is an alternative. Not everyone in a small Texas town likes the same music, and we do travel outside of our area.

Please allow XM to do what it does best and that is to provide all of the people in this great nation with what they want in the area of music, weather, news, traffic nationwide.
